WHAT’S THE VALUE OF YOUR PICTURES?
CAN WE STILL TRUST IMAGES IN THE FUTURE?

AND BY THE WAY: HOW SAFE IS OUR HISTORY FROM DEEPFAKES?
Photography is truth. The cinema is truth twenty-four times per second

VERIFICATION STRATEGIES
So we took a closer look at the video... and found clues that prove the government was wrong.

We'll start with the location. Where did this happen?

The first 40 seconds of the video capture a mountain range with a distinctive profile.

After a tip off from a Cameroonian source, we found an exact match for that ridge line on Google Earth.
